Become part of the world of **computational intelligence!** Benefit from the many opportunities of expanding and updating your knowledge, sharing results of your activities, developing new knowledge and professional practices, networking with your peers, and promoting your career.

For more information:

<https://cis.ieee.org/>

The **IEEE Brain Technical Community** unites engineering and computing expertise across IEEE Societies and Councils relevant to neuroscience and provides an avenue for IEEE to work with multiple constituencies in academia, industry, and government to incubate and sponsor new activities, projects, and standards that facilitate bringing neurotechnology to market in an ethical and responsible manner.

IEEE Engineering in Medicine & Biology Society

IEEE Engineering in Medicine and Biology Society (EMBS) is the world's largest international society of biomedical engineers. Members are interested in bioinformatics, biotechnology, biomechanics, clinical engineering, information technology, instrumentation and measurement, micro and nanotechnology, radiology, and robots. They are researchers and educators, technicians and clinicians - **biomedical engineers are the link between science and life science, creating innovations in healthcare technology for the benefit of all humanity.**
